LOCAL SELF-GOVERNMENT DEPARTMENT

(Local and Municipal)

G.O. No. 3253, L. & M., 17th November 1924

Administration report—Bellary municipality—1923-24—reviewed.

Order—No. 3253, L. & M., dated 17th November 1924.

I.—Communications.

The total mileage of roads under maintenance increased by about 5 furlongs, but the expenditure fell slightly from Rs. 6,879 to Rs. 6,777. The outlay represented 64 per cent of the net toll revenue against only 50·5 per cent in the previous year. The Council is paying enhanced toll contributions to the District Board and the Cantonment Committee, the rate having been raised from one-sixth to one-fourth in the case of the former and from one-ninth to one-sixth in the case of the latter. The number of lights increased by 12 but the cost of maintenance fell from Rs. 6,600 to Rs. 6,466. The town has an early prospect of being lit with electricity.

II.—Education.

2. Though elementary education is free in the municipal schools 10 per cent of the boys and 81 per cent of the girls of school-going age in the town are yet without instruction. In spite of this half a dozen schools including a municipal school were closed during the year. The education of girls is specially backward and effective steps should be taken to improve it.

3. Owing to the amalgamation of two schools in Cowl Bazaar, there were only 21 schools at the close of the year (17 for boys and 4 for girls) against 22 in the previous year. Though attendance fairly improved, there was a reduction in the total strength from 973 to 953. The standard of instruction is poor and is capable of improvement. Only eleven schools taught up to or beyond class IV, while about a third of the staff lacked training. The Council should take steps to train the untrained teachers or replace them by qualified men. Eight schools were accommodated in rented buildings. The construction of buildings for these schools and the provision of play-grounds should receive early attention. Provision for backward classes seems adequate, there being seven schools for Muhammadans and three for others.

4. Besides the municipal high school there were two other secondary institutions in the town. The strength of the secondary department in the municipal high school rose from 431 to 464. Seventy-nine students attended the school from outside the municipal limits. It is gratifying to note that as many as 45 pupils from the backward classes received instruction in this school. The results at the Secondary School-Leaving Certificate Examination were not satisfactory, only 7 out of 37 who appeared for the examination having been declared eligible. The question of providing a new building for the school is under consideration.

III.—Public Health.

5. Besides the Government Headquarter hospital and the Railway dispensary there was a municipal dispensary at Cowl Bazaar. The number of patients treated at this dispensary rose from 13,701 to 14,240. There was again an increase in the birth-rate from 35·6 to 39·4 per mille of the population. A second midwife was employed by the Council from December 1923 and the outturn of the two municipal midwives rose from 55 to 163. On the whole only 16 per cent of the total number of recorded births in the town received attention at the hands of qualified midwives

and there is still ample scope for the expansion of scientific maternity aid. It is satisfactory to note that steps are being taken to train up country dhais and improve the quality of their work. Infant mortality showed an appalling increase from 230 to 414 per thousand births and the causes of this abnormal rise have not been explained. It is hoped that the Child Welfare Association recently started will look into the matter and take the necessary steps to bring down the heavy mortality. Useful propaganda work is reported to have been done during the Health week and Baby show.

6. The death-rate rose from 28·8 to 30·3 per mille. Public health was marred by a serious epidemic of smallpox which was responsible for 122 deaths. Plague and cholera were however entirely absent. The prevalence of smallpox in an epidemic form gave an incentive to vaccination work which improved considerably during the year. The total number of operations performed by the municipal vaccinators almost doubled and the number of successful cases per mille of the population rose from 42·6 to 78·4.

7. In paragraph 7 of G.O. No. 2431, L. & M., dated 30th October 1923, the Director of Public Health was asked to advise the Council on the steps to be taken to control the hookworm disease. In March 1924 he reported that he proposed to start an investigation in Bellary and to advise the Council as to what action it should take when the investigation was completed. The Director is requested to state if the investigation has since been made and, if so, with what result.

8. House conservancy showed a slight improvement, the number of houses conserved by the municipal agency rising from 2,021 to 2,086. Seventy-three per cent of the houses in the town still possess no latrines and vigorous steps should be taken under the Act to compel owners of houses to provide latrines. The service worked at a small profit during the year.

9. A protected water-supply scheme for the town has since been sanctioned and is now under execution.

IV.—Remunerative Enterprises.

10. The Council maintained two markets—one daily and the other weekly—six cart-stands and three slaughter-houses. The ordinary receipts and charges under the main heads for the last three years are subjoined—

Year.	Receipts.				Charges.		
	Markets.	Cart-stands.	Slaughter-houses.	Tree-planting	Markets and cart-stands.	Slaughter-houses.	Tree-planting.
	RS.	RS.	RS.	RS.		RS.	RS.
1923-24	2,736	1,386	5,351	79	...	2,112	66
1922-23	2,400	1,762	5,152	56	...	805	.
1921-22	1,336	1,049	2,525	120	...	896	20

The revenue from these institutions except cart-stands slightly improved. The Council proposes to construct two additional markets—one for Brucepettah and the other for Cowl Bazaar. It has now on hand only one town extension scheme, the agricultural farm, and the construction of houses therein has already commenced. There does not appear to have been much progress in regard to the town improvement schemes mainly owing to financial reasons.

11. The disposal of encroachments was satisfactory, 38 having been dealt with in the course of the year out of a total of 48 cases.

V.—Finance.

12. Collection work again deteriorated. Eleven per cent of the demand under taxes and 8 per cent of that under other revenues were left unrealized, the arrears in all amounting to Rs. 12,156. Prompt and effective steps should be taken to collect these large outstandings. The total receipts under the general funds exceeded the charges inclusive of a capital expenditure of Rs. 6,371 by Rs. 14,429 and the balance at the end of the year consequently rose from Rs. 32,499 to Rs. 46,928. The Council had unpaid bills to the extent of Rs. 3,129.

VI.—GENERAL.

13. Three of the seven elections held during the year were contested. At these elections nine candidates competed and 75 per cent of the electorate went to the poll. The Council convened 19 meetings of which none was adjourned for want of a quorum. Two meetings were adjourned for want of time or other reasons. Attendance showed a gratifying improvement, 72 per cent of the sanctioned strength having been present on an average against only 58 in the previous year. There were eight committees at work including a joint committee.

14. The administration was on the whole satisfactory. The Government are glad to note that a co-operative society has been started in the interests of the menials of the conservancy staff.

(By order of the Government, Ministry of Local Self-Government)

To The Secretary to the Government of Madras,

Local self Government Department.
Madras.

Sir, Through the Collector of Bellary.

I have the honour to forward herewith the Administration Report of this Municipality for the year 23-24 with the usual enclosures (comparative annual account for 23-24 and 4 copies of the statistical enclosures). The Report was passed in the Council's Resolution No. 1 dated 23-7-24 (copy enclosed) The printed copy of the Report will be submitted after it is got printed.

I have the honour to be,
Sir,
Your most obedient servant,

N. Narayana Rao
Chairman, M.C.

27/7

Copy to the Secretary to Government, Local self Government Department direct.

Administration Report for the Year 1923–24. Bellary Municipality.

THE REPORT PROPER.

Constitution and Management

i. There were no changes in the jurisdiction of the Municipality or in the division of wards.

(a) During the year under report there were no changes in the sanctioned strength or in the proportion of Nominated and Elected Councillors.

ii. No Official was nominated as Member of the Council

There were four Muhammadans among the elected Members. Of the seven nominated Members, only one represents the backward class, as per G. O. No. 2333 L. & M., dated 27-11-22. There were no Europeans or Anglo Indians on the Council.

(a) Directing Officers.

M. R. Ry., Dewan Bahadur M. Gopalaswami Modaliar, Avl., the Chairman of the Municipality vacated his seat on 1-11-1923 by efflux of time. At the election held on 1-11-1923, M. R. Ry., N. Narayana Rao Garu, B. A., B. L., was elected Chairman and he assumed charge of his duties on 6-11-1923. Both the Chairmen are Non-Officials and Honorary Officers. Mr. Abdul Hye the Vice-Chairman vacated his seat on 1-11-1923 by efflux of time. At the election held on 25-2-1924. M. R. Ry., G. Thimmappa Garu was elected Vice-Chairman and he assumed charge of his Office on 4-3-1924.

iii. The Chairman's election was contested. The Vice-Chairman was unanimously elected by the Members of the Council who attended the meeting.

iv. There was no Secretary of the Municipality. M. R. Ry., C. Narasimha Charlu was the Manager throughout the year. He was in charge of Office work. His work was found to be satisfactory.

3. Elections.

i. The educated classes who form the major portion of the electorate evince keen interest in elections. The lower classes do not show the same interest which may mainly be attributed to want of education.

ii. Election expenditure amounted to Rs. 174 during the year.

iii. M. R. Ry., K. Raghunatha Rao and M. R. Ry., P. Haridass Naidu the candidates who failed in the IV & III ward elections respectively held in September last filed petitions in the District Court praying that the above elections should be set aside as illegal but they have subsequently withdrawn their petitions.

4. Meetings.

i. Meetings were regularly held as required by the Act. There was not less than one meeting in each month except in the month of October during which no Council meeting was convened.

ii. Attendance of Members was fair, the average attendance being 71.61. No meeting was adjourned for want of quorum.

ii. There was promptitude in the disposal of the business entered in agenda.

iii. There was no break in the observance of the rules of procedure.

5. *The following are the standing Sub Committees formed in previous years:*

1 Finance
2 Health
3 Education
4 Lighting
5 Public Works
6 Choultries and Travellers' Bungalow
7 A Sub Committee to watch and improve the Vaccination work

There is nothing particular to say about the work turned out by these Councillors.

A Joint Committee consisting of the Chairman and the Secretary Cantonment was formed during the year under report as per G. O. No. 1670 Mis; L. & M., dated 30-7-23 for settlement of the proportion of the Toll contribution payable to the Cantonment by this Municiplity. The Government have in their Order No. 1838- L. & M. Mis, dated 4-7-24 since raised the contribution from 1/9th to 1/6th of the Toll income.

6. *Management.*

A sum of Rs. 5768 was realized during the year from animal, vehicle and cart taxes. Total service receipts were Rs, 18542. The District Superintendent of Police suggested that it was time that the Hackney Carriage Act was introduced into this Municipality in order to have control over the state of vehicles used and the condition of animals employed. The Council have sanctioned the introduction of the above Act with effect from 1-4-24. The Collector in his Endorsement dated 2-5-24 has informed me that the above subject is under correspondence with the Government and that it was not known exactly when the Act comes into force and it is requested that the said Act may be brought into force as early as possible.

8 The Municipality does not employ an Engineer. There was one Overseer of the Lower Subordinate Grade from the College of Engineering, Madras during the year under report. The scale of pay attached to the post was Rs 100-5-150. He was in charge of roads and buildings. His work during the year was found to be far from fair.

9. *Roads, Bridges, Ferries & Buildings.*

(a) Roads.

1. The roads were devided into three classes viz, 1st, 2nd and 3rd class roads. The length of the Trunk road for the maintenance of which the Government have taken the responsibility is 1 Mile 4 Furlongs and 410ft and the expenditure thereon during the year was Rs. 1562. The following are the Trunk Roads that pass through this Municipality.

1 The Madras-Bombay Trunk Road. (Schedule) I

2 The Kurnool-Bangalore Road

The District Roads are

1 The Rayadrug Road.
2 The Siruguppa Road
3 The Kalyanadrug Road

2. Broken metal of granite burnt stone is used in this Municipality and it is quite suitable for the purpose. The Katiguddam quarry is by the side of the Madras-Bombay Trunk Road to the North of the town and is located midway between the Town and the extensions. There are one quarry in Cowl-Bazaar and two in Cantonment limits. The average lead from these quarries is about 1½ Miles. No metal is brought by rail in this Municipality. The Main Warring Tank having run dry during the month of February 1924 the right of quarrying therein was sold in auction. This has brought an income of Rs. 2720 to the Municipality. A large quantity of metal and slabs is available with the Contractor for sale.

3. The busy roads are the Car Street and the Bangalore Road which are 30 ft. in width. There are no building lines maintained by this Municipality to have efficient control over encroachments, the only Municipal limit being the side drain. Most of the Shop keepers in the Bangalore Road on both sides have got the road in front of their shops slabbed to a width of 9 ft. at their own cost. The Police control the traffic on busy roads. Model Bye-laws framed by Government for control of traffic have been adopted by the Council. Most of the Main Roads are in a fair condition.

4. The gross and net receipts from Tolls for the year were Rs. 17500/- and Rs. 10,573 respectively. The expenditure on roads was 64.1% of the net receipts from Tolls during the year while the expenditure on roads during the previous year was 50.5% of the same. The Municipality was paying a contribution of 1/6th of the Toll to the District Board as well as the Cantonment Committee. On the representation of the District Board for payment at a higher proportion than 1/6 by the Municipality a Joint Sub Committee was formed to settle the matter. The Joint Sub Committee have decided that the Municipality should pay contribution to the District Board at ¼ instead of at 1/6 to which the Council have agreed. Though the Municipality have raised the contribution payable to the Cantonment Committee from 1/9 to 1/6 the Committee does not seem to have been satisfied with the increase in the contribution. The Committee wanted that the contribution should further be raised to 1/3rd but the Municipality has expressed its inability to do so in view of the large number of roads under its control (the total mileage of which is about 45 Miles). The percentage of expenditure on roads to the allotment provided in the revised estimate of the Budget was 90%.

(b) Bridges, Causeways and Culverts.

No bridges or causeways were constructed during the year. No new culverts were constructed during the year under report.

(c) Ferries.

There are no ferries in the Municipality.

(d) Departmental Buildings :—

No Departmental buildings of importance were constructed during the year.

10. Rest Houses, Choultries and Water Sheds

No new Rest houses were constructed nor were any abandoned during the year. There is a Rest house in the Municipality which can accommodate two families at a time.

The Travellers' Bungalow fees were raised during the year as shown below with the sanction of the Council.

From Re. 1-0-0 to Re. 1-8-0 in case of single traveller and from Rs. 1-8-0 to Rs. 2-0-0 in case of married couple.

(ii) Gross cost of maintenance was Rs. 444, Net cost of maintenance was Rs. 182. No capital expenditure was incurred on the building.

(a) Choultries and Water Sheds.

No new Choultries were constructed nor were any abandoned during the year There is a Choultry called the Prince of Wales Choultry, It is a big spacious building consisting of 4 inner rooms and 8 outer rooms, The inner and outer rooms are intended for Caste Hindus. The outside verandahs are generally used by low caste people.

i) There is another Choultry called Tulasamma Choultry an Endowed Institution. It is a small room intended only for Caste Hindus.

Gross cost of maintenance was Rs. 132 and the net cost of maintenance was Rs. 6 There are no Endowments for Choultries in this Municipality. No free feeding is carried on in the Choultries of this Municipality.

Ramakoti Chatram.

This is a Choultry lying within the compound of the Prince of Wales Choultry, The site on which the Chatram was constructed was granted by the Council to one Ramachandrayya and his son Raghaviah has executed an agreement embodying the conditions of the grant which are detailed below —

1. That Raghaviah and his heirs should keep the building in good condition.
2. That the building shall be under the control of the Municipality for Sanitary purposes.
3. That the building shall be used solely as a Brahman Dharma Sala.
4. That the building shall not be sold or mortgaged by Raghaviah or his heirs.
5. The management of the Chatram shall vest in Raghaviah and his heirs.
6. That in case of violation of any one of the above conditions the Municipality shall be entitled to enter upon and take possession of the Chatram and use it for such purposes as it deems fit.

N. B.— The agreement was taken from Raghaviah son of Ramachandriah, the latter having dies soon after the construction of the Chatram.

11 Tools and Plant and Stores.

A sum of Rs. 108 was incurred on Tools and Plant during the year under report.

12 Lighting.

There was an increase of 12 lights during the year under report when compared with the previous year, the lights used during 1922-23 and 1923-24 being 471 and 483 respectively.

An Electric Lighting Company has been started in the town. The General Electric Co., have on behalf of the above Company started the construction of the Power House and wire connections etc., in the town. It is learnt that the Company will be in a position to supply electricity to the public and then the Municipality will be in a position to think of electrifying the town.

Appropriations from Government Grants are shown as receipts under Government Grants.

14 Adequacy of Educational Facilities.

i. According to the Census figures of 1921 there were 2141 Boys and 2143 Girls of School going age in this Municipality. 222 Boys and 1728 Girls are yet to be provided with education. There were 40 Schools for Boys and 10 Schools for Girls at the beginning and 35 Schools for Boys and 9 Schools for Girls at the close of the year under report. The average strength in all Schools was 1335 for Boys & 677 for Girls.

ii. No one attended the Schools from outside the Municipal limits.

15 Strength and Efficiency.

i. There were 22 Municipal Schools at the beginning and 21 Schools at the close of the year. Bahadur Road Muhammadan School in Cowl-Bazaar was amalgamated with the Cowl-Bazaar Muhammadan School during the year under report and hence the decrease. The average strength of all Elementary Boys Schools was 734 while that of Girls' Schools was 198 during the year. The percentage of the above to the total average strength of all the Schools in the Municipality was 55.0% for Boys and 29.24% for Girls.

ii. The percentage of attendance to average strength in case of Boys and Girls was 76·7% and 83.3% respectively. There were three Schools teaching up to 5th Class, 8 up to 4th Class and 10 up to other Classes.

iii. The percentage of the total number of Pupils who attended the 1st, 2nd, 3rd, 4th & 5th Classes to the total strength during the year were 47.7, 23.9, 16.6, 10.0 and 1.8 respectively for Boys while for Girls the percentages were 74·1, 13·4, 7·1, 4.6, 0.8 respectively There were 7 Schools for Muhammadans 5 for Boys and 2 for Girls and 3 for backward classes. Backward classes were freely admitted in Elementary Schools intended for Caste Hindus.

16 Staff.

Out of 41 Teachers 28 were trained while the remaining 13 were untrained men. A trained Teacher is paid Rs. 16 a month and he is admitted to the benefits of the Provident Fund.

17 Accommodation and Equipment.

There were 6 Schools buildings owned by the Council, Ten Schools were held in rented buildings. An expenditure of Rs. 121 was incurred on the maintenance of Municipal School buildings. There is sufficient accommodation in all the Municipal Elementary Schools except in Cowl-Bazaar Model Schools where it is proposed to provide additional accommodation. All these buildings are well ventilated but no play-grounds are attached to them. All Schools are fairly well equipped.

18 Elementary Education.

i. 37.57% of the total expenditure on Elementary Education was met from Government subsides while 62.43% from Municipal resources. Education tax was not levied in this Municipality though Elementary Education for both Boys and Girls was made free.

ii. The cost per Pupil was Rs. 11-1-4 as against Rs. 11-8-2 in the previous year

iii. With the exception of consultation with the Council in the matter of Elementary Education and the submission of the Elementary Education Budget to them there have been no other relations with the Council, Messrs. Narayana Rao & Balaji Rao, Municipal Councillors were the Members of the District Educational Council elected by the Council. M. R. Ry. Guduthur Thimmappa Garu Municipal Councillor has been Elected Member of the District Educational Council in the Council meeting held on 27th March 1924 in place of M. R. Ry., N. Narayana Rao Garu as the latter had to vacate his seat on the Educational Council by efflux of time on 19-4-1924.

II. SECONDARY EDUCATION.

19. Adequacy and strength.

i. 1. Municipal High School
2. Wardlaw High School
3. Saint John's Middle School

ii. Students were taught up to VI Form in the Municipal High School and the Wardlaw High School while in the Saint John's School they were taught up to III Form. The strength of the Secondary Department of the Municipal High School was 464 against the total strength of 797 in all Schools.

20 Efficiency.

i. The average attendance was 89.5% of the average strength.

ii The strength of each Form in the Municipal Secondary School was as shown below,—

Form I	90
,, II	99
,, III	72
,, IV	72
,, V	66
,, VI	65
Total	464

The strength of the Primary Department in the Municipal School was 109.

iii. 79 Students attended the School from outside the Municipal limits.

iv. There was only one Girl in the Secondary Department. 45 Children of the backward classes attended the School during the year under report.

v. Seven Students were declared eligible out of 37 that appeared for the S.S.L.C. Examination of 1924. The following are the Inspecting Officers remarks, "The Headmaster is very active and energetic and he is ably and zealously backed up by a band of young and earnest assistants. There are but four L. Ts on the staff of this large Institution and it is hoped that their number will soon be increased. The most pressing need of this heavy institution is a suitable & substantial building." As a result of these remarks two Assistant Teachers of the School are sent up for L T course in the current year (24-25) one as a Municipal stipendary and the other as a Provincial stipendary.

21 *Staff.*

The number, qualifications etc, furnished in the form of a statement is hereto appended.

Equipment.

A sum of Rs. 1694-11-0 was spent this year in equipping the School laboratory with Physical and Chemical apparatus as the School was suffering for want of apparatus ever since the Chemistry Section was opened in this School. The sanction applied for meeting this expenditure out of net cost in this Office Ref. G. C. 42 dated 22-2-24 may kindly be accorded at a very early date as the amount has already been advanced from the Municipal Funds with the hope that the Government would meet this from net cost.

i. The School was located in a private building. The roof of one of the class rooms of this building collapsed all on a sudden on the 10th August last but fortunately there was no loss of life the accident having occurred half an hour before the School opened. With the permission of the Council the School was temporarily shifted to the Town Hall Buildings on a monthly rent of Rs. 100 till the necessary repairs for the building were effected and the building made safe for its re-occupation by Dr. Narasimhulu the owner of the building.

The Town Hall Buildings to which the School was shifted being quite unsuited for a School house there were many complaints from the Teachers & Students with regard to want of accommodation and exposure to sun and rain in the case of the classes held in the sheds. In the meantime Dr. Narasimhulu got his building properly repaired at a cost of Rs. 3000 and certified to by the Assistant Engineer of the P. W. D., that it was safe for occupation Owing to loud complaints from several quarters about the unsuitability of the Town Hall Buildings for School purposes, the School was removed to Dr. Narasimhulu's building on 26-12-23 with the permission of the Council. In consideration of his having spent Rs. 3000 in repairing his building Dr. Narasimhulu has applied that the rent of the building be raised to Rs. 100 from Rs. 75 per mensem. The Executive Engineer has recommended that the rent may be fixed at Rs. 100 and the Council has approved of the same. The Government are pleased to sanction Rs. 100 as rent of the building in G. O. No. 1870 L & M Mis dated 8-7-24 After the removal of the School from the Town Hall Buildings the owner thereof was paid rent due to him for the period the Buildings were occupied by the Municipal High School at Rs. 100 and the Government has been pleased to sanction the said rent in its G. O. No. 1498 L & M Mis, dated 5-6-24.

With regard to a New Building for the Municipal High School it is learnt that the Government have been pleased to allot a sum of Rs. 4500 in the current year's budget for the purpose. The Superintending Engineer in his letter dated 9-5-24 informs me that the plans and estimates for the above building have been sent to the Executive Engineer, Bellary and that on receipt of the same from the Executive Engineer, they will be submitted to the Chief Engineer, P. W. D, for obtaining the approval of the Government. It is requested that Government will be pleased to arrange for the early starting of the work.

There is a play-ground in the School compound itself though a small one. In close proximity to the School there is another public play-ground which is also utilized by the Boys of the School. The old Military drill has fallen into disuse and the modern Noehren's drill has taken its place. Pupils take to this drill with pleasure and it is becoming more popular. The Drill Teacher has undergone training in the modern Noehrens' drill.

iii. There is no Hostel attached to the School. There are five private Hostels in the town as shown below :—

1 G. Kristappa's Hostel
2 M. Nagappa's Hostel
3 Raja Subba Bhatlu's Hostel
4 Lingayet Hostel
5 Ediga Hostel

In the last Hostel some of the Students of the School only lodge, there being no Boarding arrangement. In the first three Hostels poor Students of Vaisya and Brahmin communities are freely fed and lodged. But these Hostels are in the town amidst unclean surroundings and are entirely communal in character. The fourth is a Hostel for Lingayets where poor Boys of that community are fed free. This is situated outside the town in a healthy locality. Hence a well conducted Hostel outside the town is a necessity If the last named Hostel which is situated very close to the Municipal High School outside the town in a healthy locality and which possesses a vast compound with a fine well is taken over by the Municipality and is run as a Hostel for the Boys it will be a boon to the town. The Proprietors of the building are willing to place it at the disposal of the Government

23. Net cost of the School was Rs. 8920-9, Cost per Pupil was Rs.

24. *Special Schools, Public Libraries etc.*

There were neither special Schools nor public Libraries in the Municipality during the year.

12

I, MEDICAL RELIEF.

26. Adequacy.

i. There were three Medical Institutions during the year under report viz.,

1. The Government Head Quarter Hospital
2. The Railway Dispensary
3. The Municipal Dispensary at Cowl-Bazaar,

ii. Staff in the Cowl-Bazaar Dispensary consisted of the following:—

1. Sub-Assistant Surgeon	1
2 Midwife	1
3 Compounder	1
4 Male Ward Attendant	1
5 Female Ward	1
6. Waterman	1
7. Peon	1

iii. No special arrangements were made for the treatment of women and children in the Municipal Dispensary at Cowl-Bazaar as there is a Woman and Children's Hospital attached to the Head Quarters Hospital where women and children are treated by a Lady Sub Assistant Surgeon.

27 Patients

The cost per Patient in Cow-Bazaar Dispensary was Rs. 0-5-8. The Council have sanctioned the payment of a monthly contribution of Rs. 15 to the District Medical Officer for feeding poor and helpless Patients sent to the Main Hospital for treatment

28 Accommodation and Equipment.

The Municipal Dispensary at Cowl-Bazaar was located in a rented building in the centre of Cowl-Bazaar. The Dispensary is not in need of emergency wards in as much as the Head Quarters Hospital has them.

ii, The equipment and the Subordinate staff are sufficient.

iii. No capital expenditure was incurred during the year.

II PREVENTIVE MEDICINE.

29 Organization and Staff.

There is no Health Officer for this Municipality. There is a Chief Sanitary Inspector who is a qualified hand. He is assisted by three Assistant Sanitary Inspectors who are all unqualified men. T. Madhava Naidu, Assistant Sanitary Inspector who was exempted from the prescribed Examination Rules for admission into the Training class, could not apply for admission in time owing to illness. The Director of Public Health has granted exemptions to Assistant Sanitary Inspectors O. Madhava Rao and Padmanabha Iyyar for being employed as Sanitary Inspectors in this Municipality for a period of two years with instructions that they should qualify themselves within that period. The following are the remarks of the Dy. Director of Public Health with regard to the Sanitation of the town after my taking over charge of the Municipality.

> "Before concluding I wish to say a few words in regard to the general Sanitation of the town which was only recently inspected by me. It is a very gratifying to note that within the short space of nearly 2 months remarkable progress has been made in the street conservancy and disposal of house sullage. Other suggestions made by me in my notes are also receiving the attention of the Chairman who was kind enough to take the trouble of going through my previous Inspection Notes with me. If the same rate of progress continues as I expect it will not long before the Sanitation of the town will improve considerably and the Public Health secured".

An expenditure of Rs. 2903 was incurrred towards the pay and allowances of Sanitary Inspectors. The Municipality has no relation with the District Board or any other Local Body in connection with Sanitation. Almost all the items recommended by the Director of Public Health in connection with the Health Week and Baby Show were carried out with the exception of exhibition which is difficult of accomplishment in a place like Bellary. A Programme of work done during the week has been sent to the Director of public Health. Several Medical men as well as lay men of the town came forward & readily lent their services for the propaganda work for the benefit of the people during the Health Week A series of 15 popular lectures on subjects relating to personal Hygiene & cleanliness supplemented by Lantern shows wherever possible have been organized and carried out at three important and popular centres of the town. To give widest publicity to the movement wall posters in English and Telugu relating to Influenza, Relapsing fever, Malaria and Smallpox received from the Director of Public Health were posted in prominent places so as to catch the eye of the public. A thousand copies each of the four Telugu Pamphlets on [1] How to handle a Baby, [2] What mothers ought to know [3] The water we drink and [4] Small pox were printed and distributed throughout the town. Besides a thousand copies of the Programme for the Week were specially printed in Telugu for broad cast distribution among the masses. Six prizes of Rs. 5 each were instituted for School Children (Both boys and Girls) who wrote the best essay in Vernacular or English on the aims and objects of Health Week. As regards Baby Show a part of the Programme it was especially organized by Mrs, Berlie and several prizes were distributed to mothers having strong and healthy Children. On the whole the Health Week and the Baby Show of the year was a complete success.

No other propaganda work except what was done during the Health Week and Baby Show was carried out during the year

30 Birth rate and Maternity Relief.

I. There were three Birth and Death Registrars working in the Municipality. The birth rate for the year under report was 39.4 per mille as compared with 35.6 per mille in previous year. During the year seven prosecutions were conducted for failure to get births registered.

ii. There were three qualified Midwives in the Municipality. Of these one is attached to the Cowl Bazaar Dispensary and the remaining two were in the Head Quarter Hospital: One additional Midwife for Brucepatta was entertained from 6-12-23. 244 cases were attended by the Midwives as against 121 in the previous year. The Midwife attached to the Municipality attended 163 cases as against 55 cases in the previous year.

iii, The percentage of recorded births attended by qualified midwives was 15.5.

iv, A class has been opened by the District Medical Officer for imparting training to the Dhais in order to improve the quality of their work. Seven Dhais underwent training at a cost of Rs: 224.

v, A Child Welfare Association has been started in this Municipality in December last. It is maintained from subscriptions from the public. The Council has sanctioned a monthly subscription of Rs. 120 Here the Children of poor people are washed or bathed and fed. Children and pregnent women are also treated here for ordinary diseases.

31, Death rate Epidemic and Endemic Diseases.

i, The total number of deaths during the year was more than that of the previous year. The increase is more noticeable under the following heads—

Heads,	1923–24	1922–23	Quinquennial
Smallpox	122	N.I.	43
Dysentery	92	66	81
Fevers	178	169	134
Respiratory diseases	195	176	165

The increase was chiefly due to the prevalence of smallpox, Influenza and Dengue fever during the year,

ii. The rate per mille of deaths from (1) fevers was 4.4 as against the Presidency average of 7.8 (2) Diarrhoea and Dysentery was 2.3 as against the Presidency average of 1.3 and (3) Respiratory diseases was 4.9 as against the Presidency average of 1.2.

iii. There was no Cholera during the year under report.

iv. Small-pox broke out in an epidemic form during the year and it carried away 122 persons. All the preventive measures suggested by the Dy. Director of Public Health in his inspection remarks to check the spread of the disease were adopted. Vaccination is compulsory in this Municipality. The Municipality employs two Vaccinators and a Vaccinatrix and a temporary additional Vaccinator was also employed to help the permanent staff. The number of successful (Primary and Secondary) cases vaccinated per mille was 78.4 The number of successful re-vaccination cases during the year was 1448 The Sub Committee for the improvement of vaccination work have not turned out any work worth mentioning.

v. There was no plague during the year.

vi. The Town was free from Malaria during the year.

vii. There were no cases of Hook-worm reported during the year.

viii. The Municipality could not take any steps on the Sub Committees report in connection with Hook-worm disease as it is in the dark as to the existence or otherwise of the disease in the Municipality. It is therefore requested that the Government will be pleased to send out an expert to give his opinion in the matter.

32. Sanitation.

i. There were 21 public Latrines. The filth collected from the Latrines is taken in baskets and night soil hand carts to Sub Depots where it is deposited in the Bombay pattern night soil barrels mounted on double bullock carts. These carts are taken to the trenching ground where the night soil is buried. The number of night soil hand carts has been increased during the current year to avoid the removal of night soil in baskets as much as possible.

[b] Rubbish is carted from dust bins in type designed Rubbish carts to the Depots and it is deposited there. The Rubbish Depots are leased out annually to the Highest bidders.

[c] Sullage is removed in Bombay pattern barrels and emptied over the rubbish in the Depot where it disappears partly by evaporation and partly by absorption The total amount of Conservancy receipts was Rs. 1864 during the year. The Conservancy plant being insufficient to meet the requirements 3 additional carts were purchased during the year. Nothing has been set apart during the year towards the Conservancy depreciation fund. No Bye-laws were framed with regard to Conservancy during the year.

ii. Private Conservancy.

The Private scavenging system worked with a profit of Rs. 343 during the year. A sum of Rs. 855 has since been realized up to date out of the balance of the year under report. 74% of the houses are without Latrines and only 21 5% of them are served by the Municipal agency.

[b] Food Adulteration.

1. Hotels, Refreshment stalls, Sweetmeat shops were all licensed during the year. One of the conditions under which these licenses are granted is that the cups and saucers used in these places should be washed with Permanganate of potash.

2. The Sanitary Inspectors are responsible to see that the conditions of the licenses are strictly enforced.

3 Model Bye-laws have been adopted in this connection.

[c] *Dangerous and Offensive Trades.*

The following Dangerous and Offensive trades were carried on far off from dwelling houses [1] Tannery, [2] Lime kiln, [3] Storing hides. [4] Distillery.

ii. A list of Dangerous and Offensive trades licensed in this Municipality during the year under report is hereto appended. Model Bye-laws have been adopted with regard to these industries

iii. Some of the Model Bye-laws received with G. O. No. 402 L & M., dated 10-2-23 have since been adopted by the Council.

iv.- These trades are often inspected by the Sanitary Inspectors in order that they are kept in proper Sanitary condition.

[*b*] *Fairs and Festivals*

No Fairs and Festivals of any importance are held in this Municipality.

33 & 34. Water Supply and Drainage.

There is no Water and Drainage system for this Municipality. The chief source of water supply for the Town (Brucepettah) is the Maintwarring tank close to the Town. It receives its supply from the Hill and it is connected with the tank by a supply channel. The supply channel is periodically cleaned with the help of the Conservancy staff. There are four fresh water wells in close proximity to the Nallacheruvu tank. Owing to the failure of rains during the year almost all the wells in the Town have dried up and the scarcity of water was very keenly felt.

BELLARY WATER WORKS.

The failure of monsoons during the previous years, starting the Allipur Jail with an extra population of 6 to 7 thousand prisoners brought this question of Water works to the fore front which had been taken up some years back and shelved in for Financial reasons. But for the enthusiasm and the keen interest evinced by the Collector in the matter of providing this long neglected Town with a protected water supply, it would have been practically impossible for the Municipal Council to induce the Government to take up the question as a live one and to think of starting the works. The Hon'ble Sir, A. R. Knapp visited the Town in the month of November 23 and conferred with me and the Collector about this question and then it was finally agreed that the Government should be generous enough to give ¾ of the cost of the works to the Municipality as a grant and that the rest should be borne by the Municipality and that the Government should lend the said ¼ of the amount repayable at 30 instalments at 6% and that the Government should be kind enough to spend the whole amount of its grant before the Municipality is called upon to tax itself. These proposals were laid by me before the public at a meeting specially called for the purpose and with a loud acclamation they were accepted by the public. They were again placed before the Council at its meeting held and were also accepted. The Hon'ble Raja of Panagal, the Minister of Local Self Government has been pre-eminently responsible for influencing the Government to give to this Municipality ¾ of the money for the construction of the works and exhibited his interest in the people of this place by himself going over here and laid the Foundation Stone of the Water works on 23-1-1924 The public are heartily glad that Water works Sub Division has been formed to look after the constructions of the work and 3 days back the first consignment of the pipes has been received and thus the public are assured of the protected water supply. This it must be noted here that the services rendered by the Collector Mr. A. C. Duff I. C. S., and the Hon'ble Raja of Panagal can never be forgotten by the people of this Town to whom they would ever look up gratefully

The main source of water supply to Cowl-Bazaar is the Fort Ditch under the control of the Military authorities. Water is pumped from the Ditch to a Reservoir close to it from where people take it. The Municipality pays a contribution of Rs. 300 for the maintenance of the above Ditch.

The water supply from the Fort Ditch was cut off to the Cowl-Bazaar public by the Jail authorities on 15—11—23. On my requesting the Superintendent, Allipur Jail to state the circumstances under which the supply had been cut off he informed me that he did it under the instructions of the District Magistrate. The Civil population of Cowl-Bazaar have been in the enjoyment of the right to take water from the Fort Ditch for a very long time and the Military authorities have at various times acknowledged their right to the use of the water and have at no time denied it. If the Jail authorities have acquired the rights of the Military Department by means of transfer the Jail Department is bound to recognize the rights of the Cowl Bazaar people undertaken by the Military Department. Several representations made by the Municipality to the Government have not been favourably met with with the result that the Municipality which had enjoyed her right uninterruptedly for more than 30 years has been now negatived.

16

35 *Public Health and Safety* [Mis.]

The Municipality does not maintain a Veterinary Hospital. The one in the Municipality is maintained by the S. P. C. A. The Municipality pays no Contribution to this body.

[ii] There was a Fire Engine during the year. To look after it the Municipality employed a Lascar.

[iii]. The Medical inspection of the Municipal Secondary Schools was not conducted during the year under report.

36. Financial Summary.

37 *Transport*

One Motor Bus plyed for hire between Bellary and Siruguppa and it was licensed. There is another plying to Moka

38 *Markets Cart-Stands, and Slaughter houses* —

1 There was one Daily and Weekly Market during the year under report The Daily Market was held in the open space at the Western end of Durgamma Temple Street by the side of the Bangalore Road The Weekly Market was held in an open space South of the Cart Street enclosed by a compound wall. It contains a single type design stall in the middle of it. A large portion of the Cowl Bazaar Market which was in a ruined condition was sold in auction.

[ii] The total receipts during the year was Rs. 2601—0—0 and no expenditure was incurred on the maintenance of Markets

[iii]. More than one market is absolutely needed for this Municipality. There is a proposal to construct new Combind Markets one for Brucepettah and one for Cowl-Bazaar for the sale of Meat and Vegetables. The plans and estimates for a Combined Market for Brucepettah have been forwarded to the Director of Public Health, Madras duly revised as per his instructions. The plans and estimates for the Cowl-Bazaar Combined Market are under preparation. A sum of Rs. 34180 will be required for the acquisition of the site for the Brucepettah Market. A sum of Rs 18420 which was available under Remunerative Enterprises has been provided in the current year's Budget for the acquisition of the above site. The Government have been approached for a loan for the balance of the amount required for acquisition

iv. There was one Private Market in Cowl-Bazaar during the year The license fee derived therefrom was Rs. 75. The estimated receipts are reported to be about Rs. 50 per month therefrom, Certain conditions regarding its maintenance have been laid down in the license.

[*b*] *Cart-Stands.*

i. There were six Public Cart-stands during the year.

ii. A sum of Rs. 1350 was realized during the year from the Cart-stands and it was not appropriated to Revenue.

iii. There are no suitable sites for the creation of new Cart-stands.

iv. There were two Private Cart-stands and a sum of Rs. 36 was realized therefrom as license fees. Conditions were not fixed for the licenses.

[*c*] *Slaughter Houses.*

i. There were three Public Slaughter houses during the year and the net Revenue derived therefrom was Rs. 3239.

ii There were no Private Slaughter houses.

39. No trees were planted during the year as the Municipality does not maintain a nursery.

40. LAND DEVELOPMENT.

[*a*] *Town Planning Act.*

i. The Town Planning Committee has been called upon to submit a detailed report with reference to the Town Planning Act and its report is awaited,

ii. The Town has not as yet been surveyed. The First and the Fourth Wards are the densly populated areas in the Municipality. No steps have yet been taken to carry out Civic Survey. It can only be undertaken on the Improvement of Financial Position of the Municipality.

iii. The Agricultural Farm is the only Town extension scheme with the Municipality at present. It has been divided into plots and several of them sold. With the aid of the loans granted by the Co-operative Building Society started during the year several of the plot owners in the Agricultural Farm have commenced constructing

196

Buildings in their plots and it has not been found difficult collecting ground rent from them as was experienced in previous years. A sum of Rs. 1009 has been collected by the Municipality during the year being the ground rent of the Agricultural Farm plots relating to the year under report and previous years and the same was remitted into the Bellary Sub Treasury to the credit of Government. At the instance of the Collector the Municipality will undertake shortly the construction of Model blocks and buildings and a Market for the benefit of the residents of the Agricultural Farm.

IV. LIST OF TOWN IMPROVEMENT SCHEMES.

(a) Cumming and Graham Roads:—

The two works have been completed.

(ii) *Durgamma Temple-Street.—*

This road has been completed.

(iii) The plans and estimates of the Samachary lane are ready but the work could not be taken on hand for want of funds.

(iv) Reddy Street:—

This road has been completed.

(v) Clearance of block South of Car Street:—

This work has been completed.

(vi) Clearance of Lalakaman Block:—

The work of effecting other improvements to the block as per estimate sanctioned by the Sanitary Engineer has been completed.

(vii) Tank-Bund Block.—

The plans and estimates for the work have been sanctioned by the Sanitary Engineer but the work could not be taken on hand for want of funds.

(viii) Ramsing Lane;—

The survey of the road has been completed and the plans are under preparation.

(ix) Formation of road between Bangalore road and Patha Kandakam.—

The plans and estimates for the work have been approved by the Sanitary Engineer but the work could not be taken up on hand owing to want of funds.

(x) *Karedappa Street:—*

This road has not yet been surveyed.

(xi) Clearing up of houses near Railway line has been completed.

(xii) Lay out of the sites acquired on the two sides of the Hirehalukkadam road.

The sites are more useful to Carpenters and wheel wrights than for house building purposes. vide G. O. No. 1478 M. Mis. C. dated 24-9-1920. Surplus sites on the road margins and plots in the Agricultural Farm were auctioned free hold. Four sites which were let out on rent have been purchased by the Occupiers.

not available

(b) Other Land Exploitation.—

i. Road side stalls are not licensed in this Municipality except on Car festival days. Temporary and unobjectionable encroachments were licensed at 6 pies per square yard per diem. Buildings materials were licensed at 4 Annas per square yard per month.

ii. Number of encroachments pending at the beginning of the year.

At the beginning of the year	43
At the close of the year	10
Received during the year	5
Disposed of during the year	38

41. Other Remunerative Enterprises if any.

There were no Pounds under the control of the Municipality.

VI. GENERAL REVENUE.

42. Revenue Account.

There was a general revision of House tax of all the Wards of the Municipality during the previous year. Property tax was levied at 9-4/9th% of the rental value in respect of houses and Agricultural lands, while the tax on vacant lands was fixed at one Anna per 80 square yards. Profession tax was levied at 70% of the rates noted in Schedule IV of the Act. Companys' tax was levied at the maximum rate given in Schedule IV of the Act. The tax on Vehicles, Animals and Carts was levied at the rates noted in the annexed list.

43. Incidence:

The Incidence of property tax was Rs. 5-2-8 as against Rs. 5-2-2 of the last year while that of the Profession tax was Rs. 5-15-1 as against Rs. 6-3-3 of the previous year.

46. Ordinary Resources.—

The total Ordinary expenditure on the services was Rs. 102289 and it was met from the General Account.

Name of services.	Amount expended from Government Grants.	Contribution & Endowments.	Percentage to total Expenditure on these services.
	Rs.		
B. Communications.	1207	Nil.	7.38
C Education (other than Ely: Education)	6781	Nil	28.31
Ely: Education.	4051	Nil.	37.5.
D. Public Health	57	300	0.7.

47. Capital Expenditure.

Amount met from loans		Per-centage to Capital Expenditure.
Met from Capital receipts	Rs 4957	64.3
Government Grants	,, 28	0.4
Municipal Funds	,, 2725	35,3.

48. Debt.

There was no debt for the Municipality during the year.

49. Investments.

No amount was invested out of Municipal Funds. A sum of Rs. 2000 was invested out of Provident Fund balance. Rs. 16640 relating to the Water and Drainage tax fund and Rs. 600 in connection with K. Srinivasa Rao's Endowment fund were also invested during the year.

50. No amount was set apart as depreciation during the year.

51. The Examiner has remarked in the Audit report on the accounts of this Municipality for the previous years as fairly satisfactory. The audit on the accounts for the first half year of the year under report was completed by M. R. Ry. Srinivasa Gopalachariar, Assistant Inspector of Local Fund Accounts in the month of October 1923 and the quarterly Audit of the 3rd quarter as per Examiner's Circular No. 1-15-5031 dated 3rd November 23 in February 1924 The Audit of the 4th quarter was commenced on the 27th May 1924 by the same Auditor and it was completed on 14.6.1924.

52. There were 33 Bills amounting to Rs. 3129 pending payment at the close of the year. Major portion of these Outstanding bills relate to the claims of 1924-25 for which bills were received before 31-3-24

53. Soon after my taking over chage of the Municipality in November last, the Sweepers and Toties in a body requested me to increase their salaries. The salaries they have been drawing are is no way less than to the salaries drawn by the Conservancy staff in other Municipalities. These Menials have been in the habit of wasting their earnings on drink and in paying interest on their debts at a very high rate. Almost all had run into debts borrowing monies at exorbitant interests. A Co-operative Society has therefore been started during the year under report with a view to save them from the clutches of their Creditors. A detailed report as regards the number of Members on the roll the number of shares and share capital etc, is enclosed herewith and the Society has made already good progress and will I am sure be highly useful and appreciated by the persons for whom it is formed.

Municipal Councillors' Office,
Bellary 25-7-1924.

(Sd) N. NARAYANA RAO,
Chairman,

The Bellary Municipal Menial Employees' Co-operative Society was started with 106 Members on 24-12-23.

The number of shares held up to 31-3-24 was 214 and the amount of Share-Capita was Rs. 362-8-0, The number gradually rose to 121 Members up to date and the share and Share-Capital were correspondingly increased to 290 and Rs. 827-8-0 respectively.

The Madras Christian Central Bank was kind enough to send Rs. 1500 on 13-3-24 as loan to relieve some of the Members from their embarrassments and 31 such Members were relieved up to 31-3-24 with the amounts collected as Share-Capital plus the loan amount received amounting to Rs. 1880.

The amounts subsequently collected from April to June as share capital and loan amounts with interest were also distributed to 26 Members, thus relieving 57 Members in all leaving a balance of Rs. 0-5-4 on 1-7-24. The Society has now applied for a second loan of Rs. 1500 to relieve some more Members and the Assistant Registrar of Co-operative Society, Bellary has kindly recommended to the Secretary, Madras Christian Central Bank for this further loan and the amount is expected shortly.

This amount if received during this month together with Rs. 306-9-10 to be collected on or about the 5th July 1924 would relieve some more Members from their pressure by the Creditors.

(Sd) N. NARAYANA RAO,
Chairman.

(Sd). M. VENUGOPAL PILLAI,
Chief Sanitary Inspector & President, Bellary Municipal, Menial Employees' Co-operative Society.

Bellary Municipality.

ADMINISTRATION REPORT

PART II.—STATISTICAL ENCLOSURES.

GENERAL INSTRUCTIONS.

1. Financial figures should be rounded off to the nearest rupee.

2. In calculating the population of rural areas for local fund purposes, the population of Municipal areas should be excluded.

3. Annual figures, where they have to be given for more than one year, should be entered in descending order, the latest year first and the earliest year last.

4. Figures for the years other than that under report should be written in red ink.

5. Financial summaries for local boards should be posted in printed forms only, additional forms being obtained from the Superintendent, Government Press.

6. Where the printed form is found insufficient for other than financial summaries, additional sheets neatly ruled should be attached.

Narayana Rao
Chairman, Municipal Council,
Bellary.

L.S.G Department

Memorandum No. 22615—1 Dtd 7—10/24/26

The following points are noticed in the administration report of the Bellary Municipal Council for 1923-24 and in the statements submitted with it :-

(1) In paragraph 9 (a)(1) of the report the expenditure on trunk roads is given as Rs.1562 whereas it is Rs.2751 according to the Comparative Annual Account (page 14).

(2) In the financial summary under paragraph 36 of the report the capital receipts and charges under Land Development in 1923-24 (Rs.816 and Rs.4957 respectively) have been omitted.

(3) In columns 3 and 4 of statement I-B the number of uncontested and contested electionsin 1923-24 are given as 3 and 3 respectively while the total is given as 7 in column 2.

(4) In column 2 of statement III - H the number of municipal schools in 1923-24 is given as 15 while it is 21 according to statements III-C and III-D. Again in column 4 of the same statement the number of rented buildings is given as 8 while it is given as 10 in paragraph 17 of the report.

(5)

(5) In column 10 of statement the gross revenue in 1923-24 (Rs.5351) en entered instead of the net revenue 3239).

(6) The collections shown in the C.B statement under the head 'Sale of rubbish' do not agree with the ceipts shown in the comparative annual ccount as shown below :-

	D.C.B Statement	C.A.Account
	Rs	Rs
Sale of rubbish	1,698	1,864

(7) The transactions under G-Endowments ccount and H-Special Government Grants Account hown separately in the abstract of the accounts hould have been included in the body f the General Account. In other words he closing balance entered on page 26 of the omparative annual account should be the total losing balance under all accounts as entered n the last column of the abstract.

2. Necessary corrections have been ade with reference to clauses (2), (5) and 7) above. The discrepancies noticed in other lauses should be explained at an early date.

Rep--3 No. 21-2 19-11-24

Station Bellary, *Dated the* 17th November 1924.

M.R.Ry.

From (Name) N.Narayana Rao, Garu B.A.,B.L.,F.M.U.

(Designation) Chairman, Municipal Council, Bellary.

To The Secretary to the Government of Madras,

Local self Government Department.

MADRAS.

Sir,

In reply to Government Memorandum No.22615-1 L & M dated 10-11-24, I have the honour to state as follows:-

1. In para 9 a (1) of the report 2 roads are shown as 1st class roads. 1 Madras-Bombay Trunk Road and 2 The Kurnool Bangalore Road. The expenditure of Rs. 1562/- shown in the report was for the trunk road for the maintenance of which the Government have taken responsibility. The expenditure of Rs. 2751/- shown in page 14 of the Comparative Annual Account was for both the trunk roads (ie) The Madras-Bombay Trunk Road for which the Government have taken responsibility of maintaining and for Kurnool-Bangalore Roads for which the Government pay no contribution for its maintenance to the Municipality.

2. N o t e d.

3. There were 7 seats vacant in 1923-24. In one election two seats were contested. The figure 7 shown in Column 2 of statement 1 B. may kindly be altered into 6.

4. There were 21 schools including night schools. As night schools are always held in day schools, number of such day schools was noted as 15 in Column 2 of III H. statement. There were only 8 schools for which rent was paid in 1923-24. The figure 10 may kindly be corrected into 8.

5. and 7. N o t e d.

6. The Heading "Sale of Rubbish etc," of page 0 of the Annual Comparative Account includes all kinds of revenue derived from sale of rubbish and charges collected for sweeping the bunglow of the private residential quarters. Witness batta of the Sanitary Inspectors credited to Municipal Funds etc. In the Demand Collection Balance statement, the realization of the sale of rubbish only is shown. Hence is the difference between these two figures.

7. N o t e d.

I have the honour to be,

S i r,

your most obedient servant,

G. Shivanappa

The Chairman, M. C.

L.S.G Department

Administration report - Bellary Municipality - 1923-24 - reviewed.

ORDER:- No. 3253 LSG 17/11/25
Ps.

I - Communications

The total mileage of roads under maintenance increased by about 5 furlongs but the expenditure slightly fell from Rs.6879 to Rs.6777 The outlay represented however 64 per cent of the net toll revenue against only 50.5 per cent in the previous year. The Council is paying enhanced toll contributions to the District Board and the Cantonment Committee, the rate having been raised from one-sixth to one-fourth in the case of the former and from one-ninth to one-sixth in the case of the latter The number of lights increased by 12 but the cost of maintenance fell from Rs.6600 to Rs.6466. The town has an early prospect of being lit with electricity as an Electric Lighting Company has recently come into existence.

II - Education

2. Though elementary education is free in the municipal schools ten per cent of the boys and 81 per cent of the girls of school going age in the town are yet witho

including a municipal schools
~~the~~ half a dozen schools were closed ~~town~~ during the year ~~which is really unfortunate~~. The education of girls is specially backward and effective steps should be taken to improve it.

3. ~~The number of municipal elementary schools was again reduced by one~~ Owing to the amalgamation of two schools in Cowl Bazaar, There were ~~thus~~ only 21 schools at the close of the year - 17 for boys and 4 for girls. against 22 in the previous year Though attendance ~~at the municipal schools~~ fairly improved there was a reduction in the total strength from 973 to 953. The standard of instruction is poor and is capable of ~~needs~~ improvement. Only eleven schools taught up to or beyond Class IV while about a third of the staff lacked training. The Council should take steps to train the untrained teachers or ~~have them~~ replace them by qualified men. Eight ~~only~~ schools were accommodated in rented buildings ~~~~ of their own. The construction of these schools and the provision of playgrounds buildings for ~~others as well~~ should receive early attention . Provision for backward classes seems adequate, there being seven schools for Muhammadans and 3 for others.

4. Besides the municipal high school there were two other secondary institutions in the town. The strength of the secondary department in the municipal high school rose from 431 to 464 ~~of whom one was a girl.~~ Seventy-nine students attended the school from outside the municipal limits. It is ~~also~~ gratifying to note that as many as 45 pupils from the backward classes received instruction in this school. The results at the S.S.L.C

Examination ~~was~~ were not satisfactory, only seven out of 37 who appeared for the examination having been declared eligible. ~~The institution is badly in need of suitable accommodation.~~ The question of providing a new building for the school is under consideration.

III - Public Health

5. Besides the Government Headquarter Hospital and the Railway Dispensary there was a municipal dispensary at Cowl Bazaar. The number of patients treated at this dispensary rose from 13701 to 14240. There was again an increase in the birth rate from 35.6 to 39.4 per mille of the population. A second midwife was employed by the Council from December 1923 and the outturn of the two municipal midwives rose from 55 to 163. On the whole only 16 per cent of the total number of recorded births in the town received attention at the hands of qualified midwives and there is still ample scope for the expansion of scientific Maternity aid. It is satisfactory to note that steps are being taken to train up country dhais and improve the quality of their work. Infant mortality showed an appalling increase from 230 to 414 per thousand births and the causes of this abnormal rise have not been explained. It is hoped that the

Child Welfare Association in recently started will look into the matter and take the necessary steps to bring down the heavy mortality. Useful propaganda work is reported to have been done during the Health week and Baby Show.

6. The death rate rose from 28.8 to 30.3 per mille. Public Health was marred by a serious epidemic of smallpox which was responsible for 122 deaths. Plague and Cholera were however entirely absent. The prevalence of smallpox in an epidemic form gave an incentive to vaccination work which improved considerably during the year. The total number of operations performed by the municipal vaccinators almost doubled and the number of successful cases per mille of the population rose from 42.6 to 78.4.

7. In paragraph 7 of G.O.No.2431 L & M dated 30th October 1923 the Director of Public Health was asked to advise the Council on the steps to be taken to control the hookworm disease. In March 1924 he reported that he proposed to start an investigation in Bellary and to advise the Council as to what action it should take when the investigation was completed. The Director is requested to state if the investigation has since been made and if so with what result.

8. House conservancy showed a slight improvement, the number of houses conserved by the municipal agency rising from 2,021 to 2,086. Seventy-three per cent of the houses in the town still possess no latrines and vigorous steps should be taken under the Act to compel owners of

of houses to provide latrines. The service worked at a small profit during the year.

9. A protetted water supply scheme for the town has since been sanctioned and is now under execution.

IV - Remunerative Enterprises.

10. The Council maintained two markets - one daily and the other weekly - six cartstands and three slaughterhouses. The ordinary receipts and charges under the main heads of for the last three years are subjoined :-

Year.	Receipts				Charges	
	Markets	Cart stands	Slaughter houses	Tree planting.	Slaughter houses	Tree planting
	Rs	Rs	Rs	Rs	Rs	Rs
1923-24	2736	1386	5351	79	2112	66
1922-23	2400	1762	5152	36	805	..
1921-22	1336	1049	2525	120	896	20

The revenue from these institutions except cartstands slightly improved. The Council proposes to construct two additional markets - one for Brucepettah and the other for Cowl Bazaar. It has now on hand only one town extension scheme viz., the Agricultural farm, and the construction of houses therein has already commenced. There does not appear to have been much progress in regard to

to the town improvement schemes mainly owing to financial reasons.

11. The disposal of encroachments was satisfactory, 38 having been dealt with in the course of the year out of a total of 48 cases.

V - Finance.

12. Collection work again deteriorated. Eleven per cent of the demand under taxes and 8 per cent of that under other revenues were left unrealised, the arrears in all amounting to Rs.12,156. Prompt and effective steps should be taken to collect these large outstandings. The total receipts under the general funds exceeded the charges inclusive of a capital expenditure of Rs.6371 by Rs.14,429 and the balance at the end of the year consequently rose from Rs.32,499 to Rs.46,928. The Council had unpaid bills to the extent of Rs.3,129.

VI - General

13. Seven elections were held during the year ~~and all the seats~~ were contested. At these elections 9 candidates competed and 75 per cent of the electorate went to the poll. The Council convened 19 meetings of which none was adjourned for want of a quorum. Two meetings however were adjourned for want of time or other reasons. Attendance showed a gratifying improvement, 72 per cent of the sanctioned strength having been present on an average against only 58 in the previous year. There were 8 committees at work including a joint committee.

14. The administration ~~was~~ was on the whole satisfactory. The Government are glad to ~~observe~~ note that a Cooperative Society has been started in the interests of the menials of the conservancy staff.

INSTRUCTIONS FOR THE SECRETARIAT.

(*a*) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise careful discretion in the matter.

(*b*) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(*b*1) For rules regarding printing of notes, see rule 315 of the office Manual.

(*c*) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(*d*) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for *one* week, and larger papers for *two* weeks only. *The type of notes and of all confidential papers is distributed immediately after striking.*

(*e*) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(*a*) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Registrar with a remark to that effect.

(*b*) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Registrar any instance of incomplete or careless editing.

(*c*) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(*d*) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(*e*) The names of the Secretary and Members should be printed in full when they occur on the right hand side, only the first time when they appear on the left side, the initials alone being printed later.
